# Smart Digital Signage for Modern Businesses

Transform any Android TV into a  
powerful digital communication screen

# About SignBharat

## Who We Are

SignBharat is a cloud-based Digital Signage platform enabling businesses to transform ordinary Android TVs into intelligent communication screens — centrally managed from a single dashboard across one or thousands of locations.

## Our Mission

To simplify digital communication for every business using affordable cloud technology.

## Our Vision

To become India's most trusted Digital Signage Platform.

# Why Digital Signage?

Traditional advertising is expensive and difficult to update. Digital signage helps businesses **communicate instantly**, reduce operational costs, increase engagement, and create a modern shopping experience.

→ Most customers notice digital displays more than printed posters

→ Digital signage reduces recurring printing costs

→ Dynamic content attracts greater attention than static signage

# Why Choose SignBharat?

## Cloud-Based

Manage displays from anywhere

## Centralized Dashboard

Unlimited screens, one location

## Real-Time Updates

Content changes instantly

## Offline Playback

Content plays without internet

## Android TV Compatible

Works with Android TVs & Boxes

## Multi-Location Control

Control displays across cities

## Smart Scheduling

Schedule by day and time

## Affordable Pricing

Low monthly subscription

# Product Features

## Content Management

Upload images, videos, PDFs, menus, announcements & offers

## Screen Monitoring

Track online/offline status of every display in real time

## User Management

Multiple login access with secure cloud storage

## Playlist Management

Create unlimited playlists for seamless content rotation

## Remote Device Management

Manage and update every device remotely with instant publishing

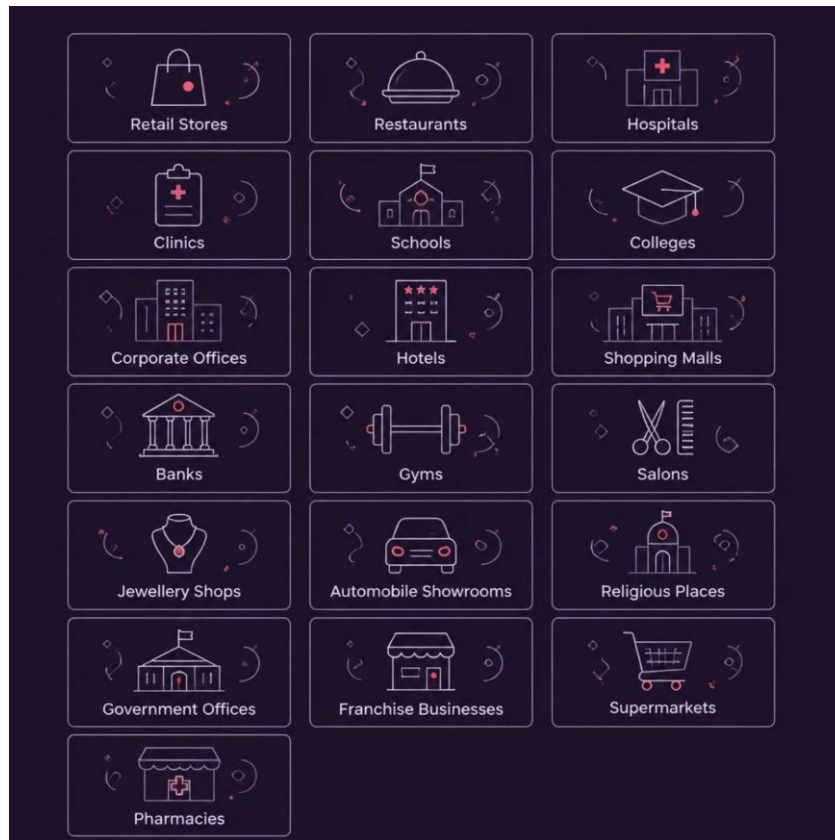

## Analytics

Monitor screen performance and audience engagement

# Industries We Serve

SignBharat serves businesses across every sector — from retail and hospitality to healthcare, education, and government. Any organization with a screen can benefit from centralized, dynamic digital communication.

# Before vs After SignBharat

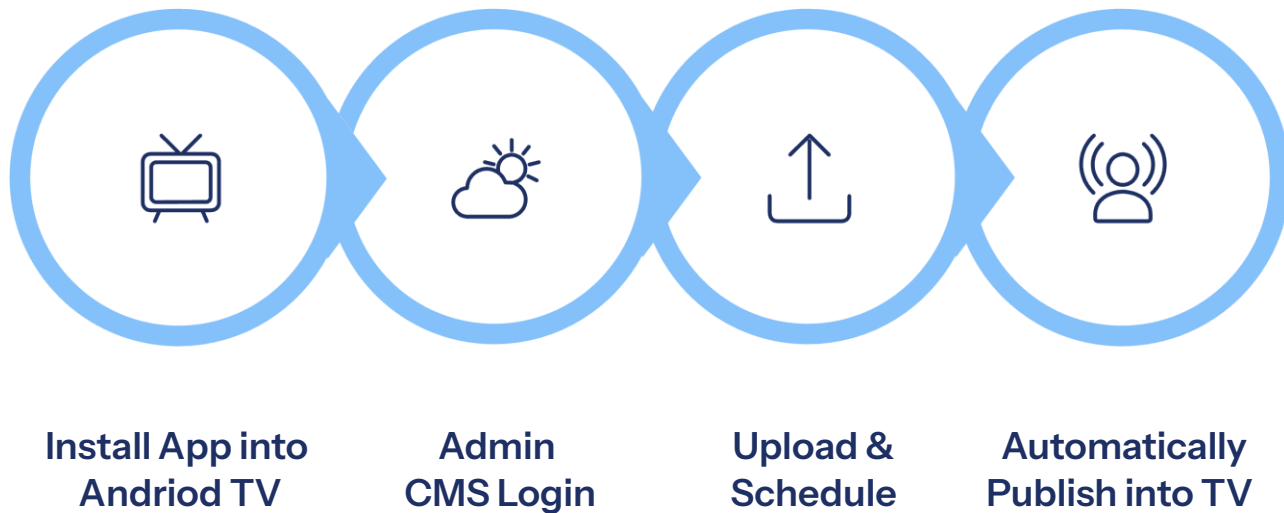

## Traditional Approach

- Static posters & printed banners
- Manual, time-consuming updates
- High printing costs
- Single location only
- Low customer engagement
- Old, outdated look

## With SignBharat

- Dynamic digital screens & videos
- Instant cloud-based updates
- Zero recurring print costs
- Multi-location control
- Higher attention & sales opportunities
- Modern brand image

# How It Works

From installation to live content in minutes. SignBharat's intuitive workflow lets any team member manage digital screens without technical expertise.
